ALL-COUNTY LETTER NO. 82-71

TO: ALL COUNTY WELFARE DIRECTORS

SUBJECT: TENTATIVE SOCIAL SERVICES BLOCK GRANT ALLOCATION, FY 1982/83

Attached is your Social Services Block Grant Allocation for state fiscal year 1982/83. Although no changes are anticipated, this allocation has been termed "tentative" as it is subject to review by the County Supervisors Association of California and the Joint Legislative Budget Committee. These funds can be used for Social Services, 24-Hour Emergency Response, Emergency Assistance, and Staff Development.

The attached allocation reflects the original appropriation (\$153,196,785), reduced by the amount of federal IV-A funding anticipated during FY 1982/83 for the services component of the Emergency Assistance Program. Counties should refer to All-County Information Notice I-70-82 and All-County Letter Number 82-67, for more information on the Emergency Assistance Program.

With the exception of the adjustment for Emergency Assistance, the allocation formula is essentially the same as that used in FY 1981/82. The formula is based on various caseload and population measures divided into four general areas: Information and Referral, Children's Services, Adult Services, and 24-Hour Emergency Response. The allocation is adjusted for social worker salaries, and each county is provided a base amount sufficient to fund one social worker. As in the past, limitations have been imposed in an effort to minimize significant allocation increases or decreases. No county shall receive an increase greater than 2 percent and no county shall receive a reduction of more than 2.5 percent over the original FY 1981/82 block grant allocation (ACL 81-107).

EMERGENCY ASSISTANCE

The allocation computed through the formula outlined above is reflected in column one of the attachment. Column two of the attachment reflects the amount of the basic allocation which has been reduced for anticipated Title IV-A revenue under the services component of the Emergency Assistance Program. Each county's share of the estimated \$8,458,000 was computed by applying a ratio which reflected each county's proportionate share of: (1) 0-17 population, (2) AFDC-FG/U caseload; and (3) AFDC-FC caseload. The resultant amount was reduced from column one to arrive at your net Social Services Block Grant Allocation (Col. 3).

It should be noted that 50 percent Federal Financial Participation (FFP) available under the Emergency Assistance Program is open-ended and is not reflected in the allocation. Therefore, all expenditures identified to Emergency Assistance - Abused, Neglected, or Exploited Children (EA-ANEC) on the administrative claim will only reduce your Social Services Block Grant allocation by 25 percent, or the required state match. Costs identified to OCSS will continue to reduce your allocation by a 75 percent rate.

The amount reflected in column two will not require a reduction in a county's program level, provided that 50 percent (Federal Share) of the total expenditures identified to EA-ANEC is equal to or exceeds the amount in column two. However, counties which claim EA-ANEC expenditures less than column two will experience an actual reduction in their allocation. Counties which exceed their Social Services Block Grant allocation as depicted in column three will be eligible for 50 percent FFP for all expenditures charged to EA-ANEC.

EMERGENCY RESPONSE

Column four of the attachment reflects the amount within your block grant allocation (column 3) which has been allocated for 24-Hour Emergency Response. Counties will continue to have discretion over the use of these funds providing they maintain a basic plan in effect. However, those counties which have failed to meet the basic plan requirements can expect a reduction in their allocation by the entire amount or by an amount proportional to the period during which they failed to meet the basic requirements.

Questions concerning this allocation should be directed to the County Administrative Expense Control Bureau at (916) 322-5802.

JAMES H. GOMEZ
Deputy Director
Administration
